Diane Whitbey, City Clerk and Collector  
North Little Rock, Arkansas

RECEIVED by \_\_\_\_\_

We, the undersigned, residents of Meadow Park, opposed Metro Scrap Metals, Inc. being granted the Special Use Permit. We do not feel they have acted in good faith. Nothing they have agreed to do will cover the enormous pile of metal, or act as a sound barrier.

North Little Rock City Council

Please find a Petition from Meadow Park Residents, and pictures from my back yard. My pictures are not professional, like the nice big pictures that Metro Scrap Metals had on the big screen at the Public Hearing. Their pictures didn't show the enormous piles of scrap metals. I never heard them say, how tall the piles of metals where, in fact, I don't believe that question was ask, and I didn't know if I could ask the question or not. Stacking two containers one on top of the other which would be approximately 18ft tall definitely would not cover the ugliness or sound.

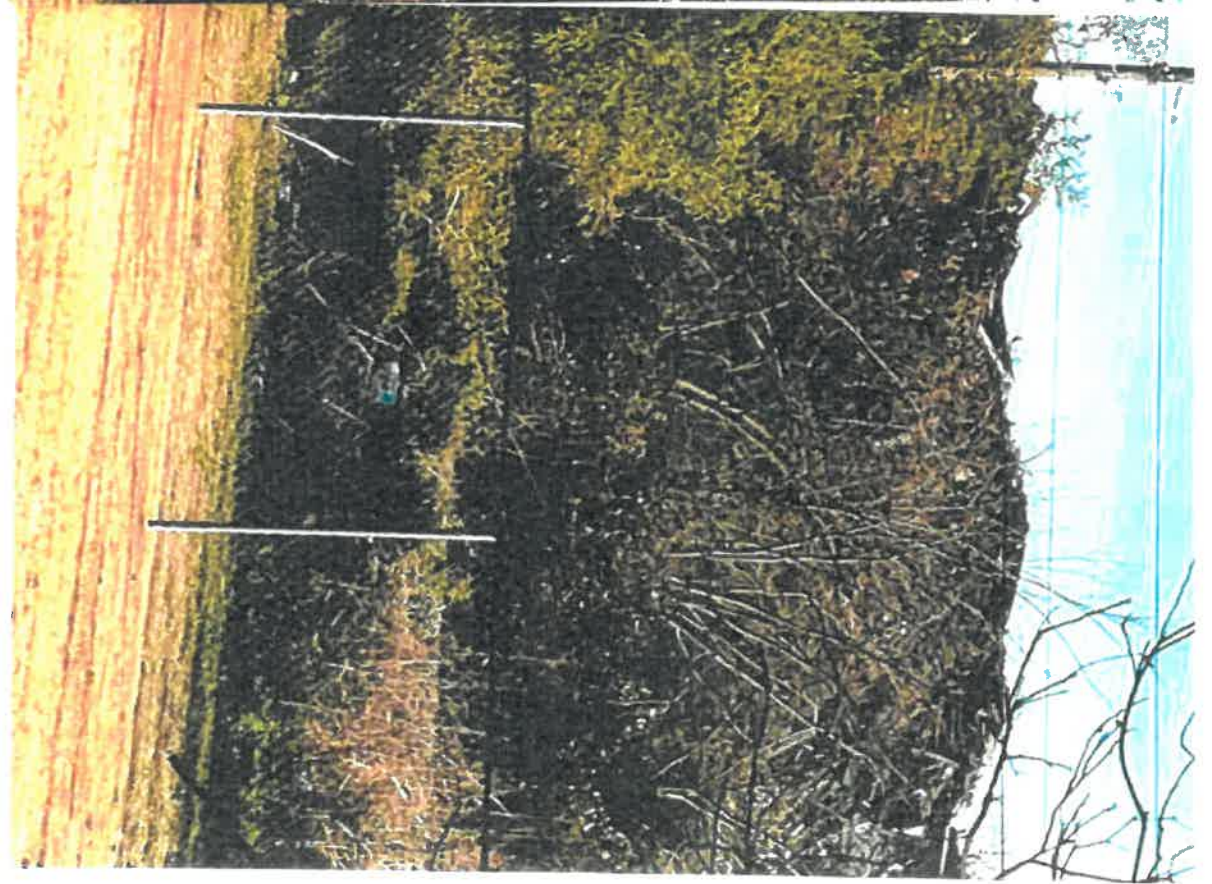

They did agree to paint the containers on one side but not the North side which is the side our property is on. The Owner made a comment that the North side look bad and didn't matter. Our property is well kept but between us and Metro Scrap Metals is a railroad that services Metro Scrap Metals. The Railroad has fifty feet of right of way, and it does look bad, but we can't do anything about that.

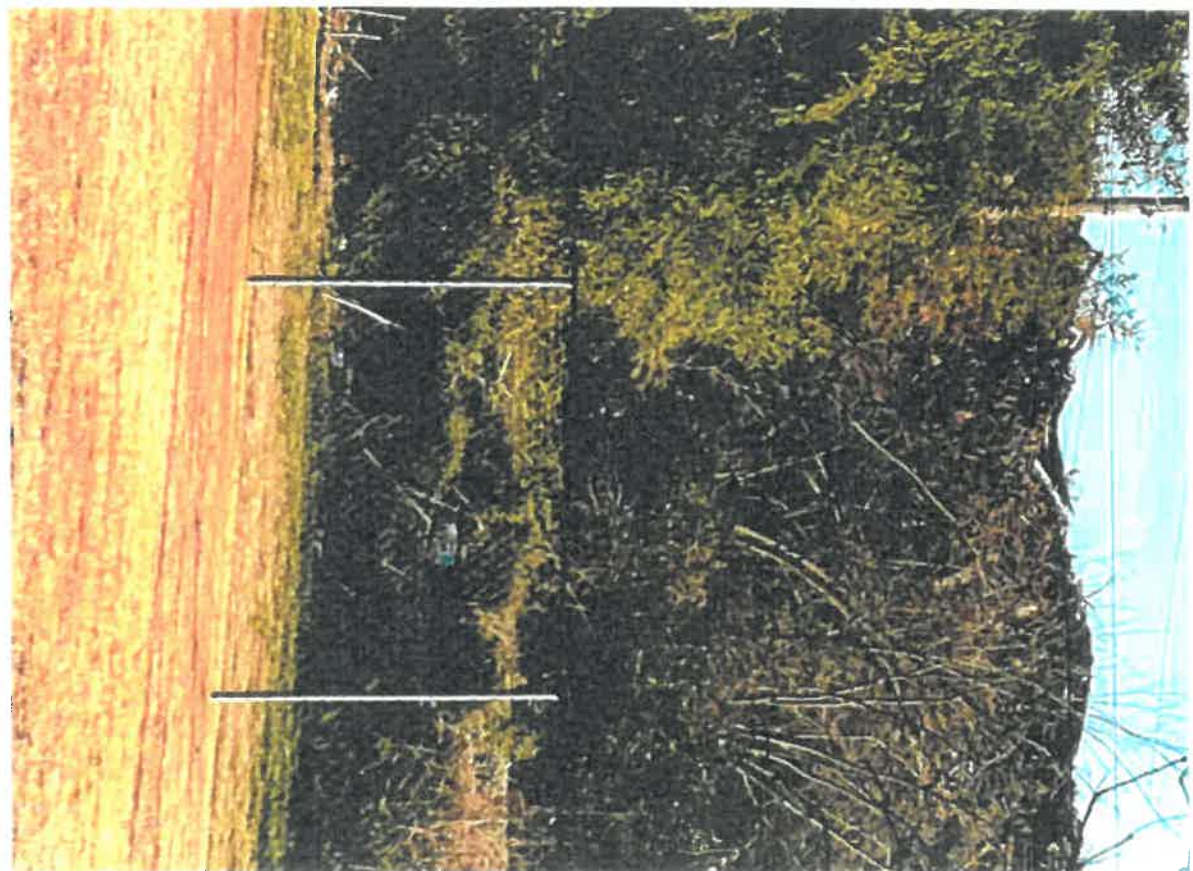

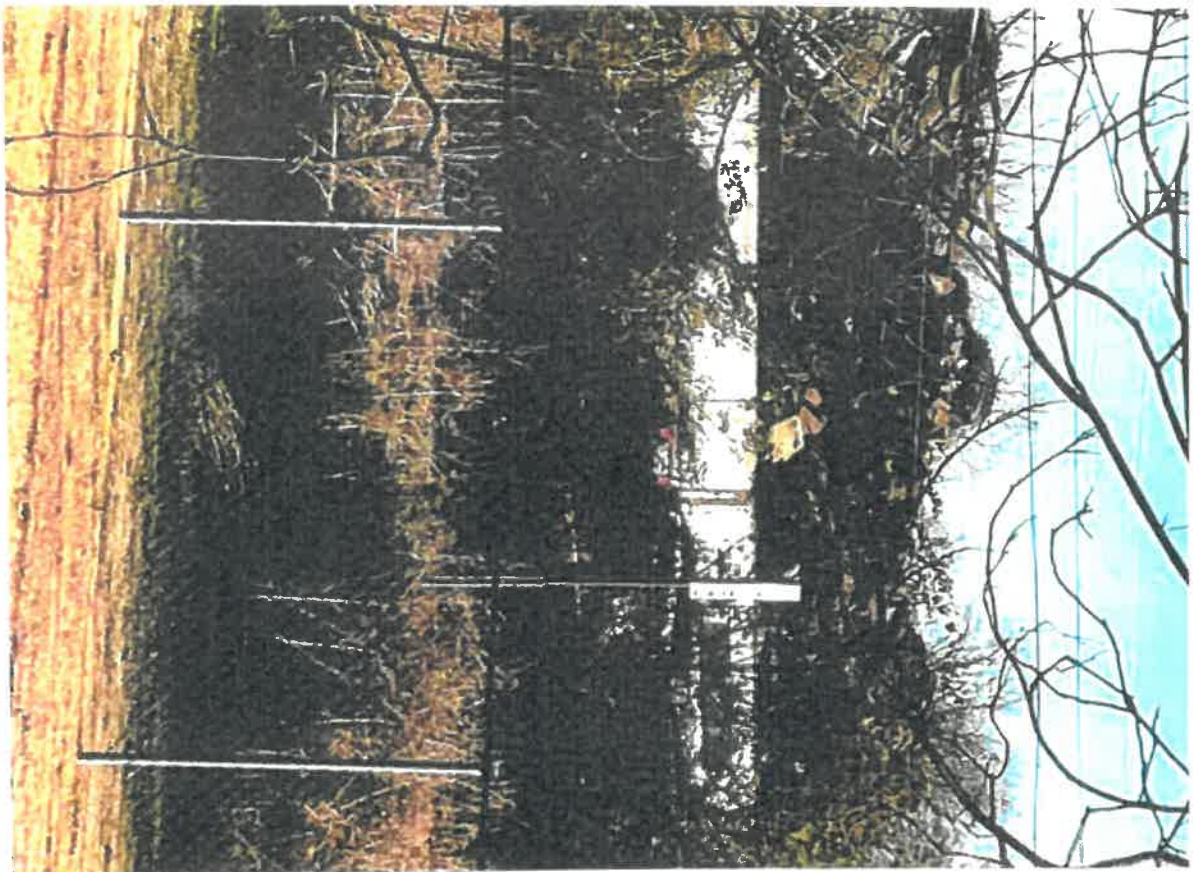

We have actually called the city, and was told the city can't do anything either. We mow a strip approximately 10 ft wide and 200 ft long on the RR Right of way just to make our property look better. I said all that just to say we take pride in our property.

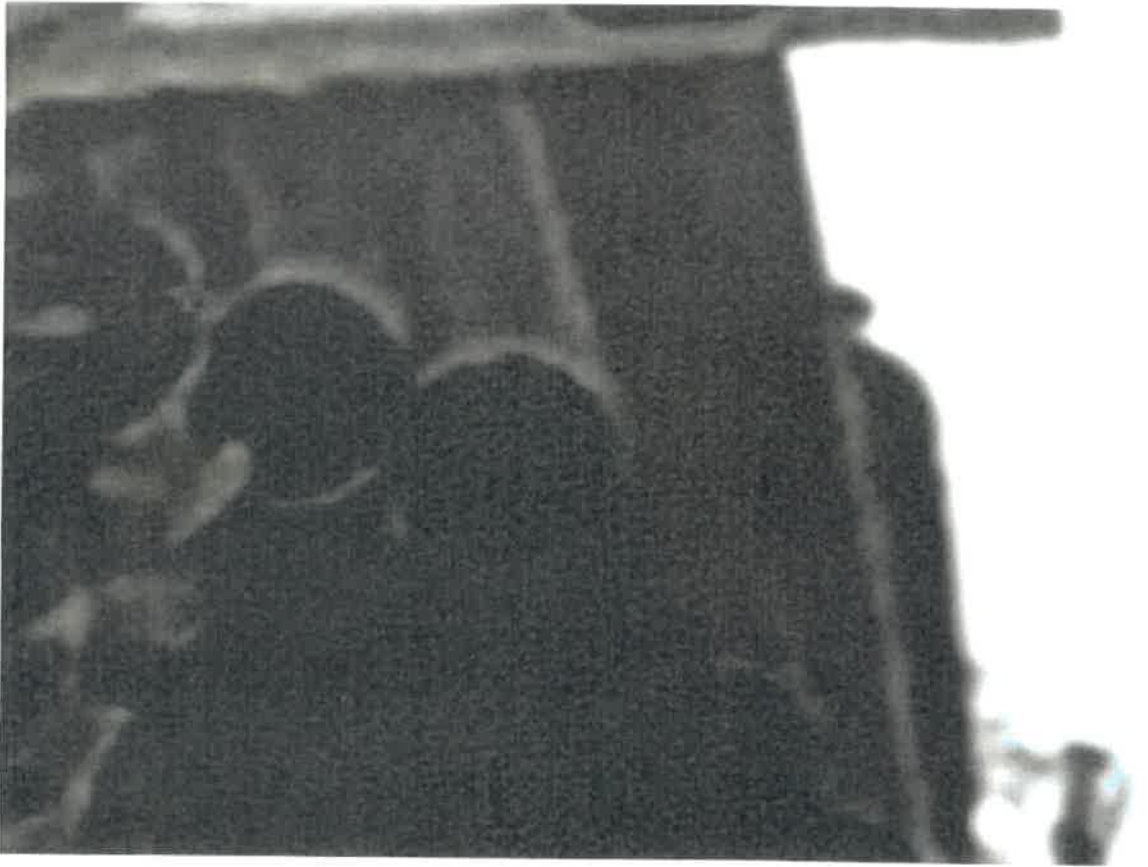

Thank You for your consideration.

Bill and Mary Wagley
