Strategic Planning

Goal 2 – add bikeability and public transportation objectives

Goal 4 – create a media relations committee for traditional and social media, add language about increased trail safety and the businesses and houses along the Levy trail, add objective related to a small home repair program, add idea about a housing “bank”, add idea about flipping houses using local trades training programs, add idea about focusing on residential in Levy and commercial in Park Hill

Other ideas – Complete Streets was mentioned, idea mentioned about each neighborhood meeting with the I-30 AHTD/CAP Corridor Project leaders to discuss how the project will impact it, attendees were interested in two specific ideas: list of available properties with specs, prices, and property contact info and encouraging biking and walking on the Levy Trail
