

SUMMARY: Levy Development Overlay (LDO)

OVERLAY AREA REGULATING PLAN

BASE ZONING

- Commercial Levy District (C-LEVY) (red zone)
 - C-LEVY allows a mix of uses on each lot within the Mixed-Use area
 - Special Use Permits NOT allowed within C-LEVY
 - Specific allowable uses: See end of this document
- Mixed Residential (MR) (R-4 Multi-Family District) gives flexibility to in residential types and increases diversity in development types (yellow zone)
 - Special Use Permits NOT allowed within MR area

APPLICABILITY MATRIX

Table 2-1: LDO Section Applicability for Commercial Use
 If the gray area is dotted, it means that the ENTIRE section should be reviewed.

		LDO Sections											
		3	4	4.1 a	4.1 c	4.2b ii	5	6	7	7.3	7.8	8	
Commercial	Change of Use/Expansion of Existing Use	•			•								
	Addition/Expansion of Existing Building	•	•				•	•	•				•
	Addition ≤10 Parking Spaces			•	•	•							
	Addition >10 Parking Spaces			•	•	•				•	•		
	New Construction	•	•				•	•	•				•

Commercial – retail, office, restaurant, lodging, mixed-use building, apartment/multi-family building (5 or more units per lot), and live-work units

Table 2-2: LDO Section Applicability for Residential Use

		LDO Sections

BUILDING FORM AND SITE DEVELOPMENT STANDARDS

Applies to: All additions, all new construction.

- **Two types of character areas:**
 - Mixed-Use (red)
 - Mixed Residential (yellow)

Building Frontage

- Standards are applied based on frontage type (see Regulating Plan, pg. 1)
 - Pedestrian Priority Frontage – highest quality standards for pedestrian-oriented building design
 - Pedestrian Friendly Frontage – balances pedestrian-oriented building design standards, while accommodating some service and parking functions
 - General Frontage – which mainly accommodates service, utilities, and parking functions

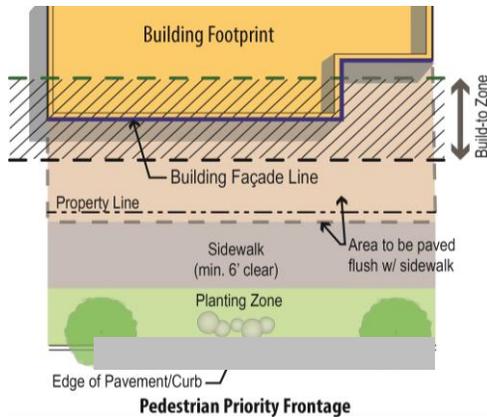

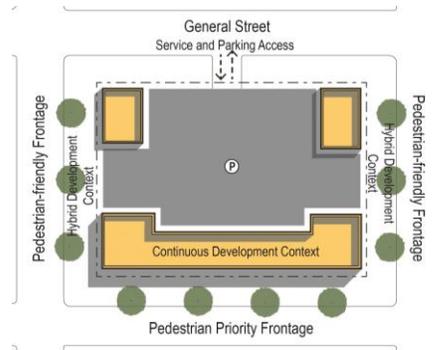

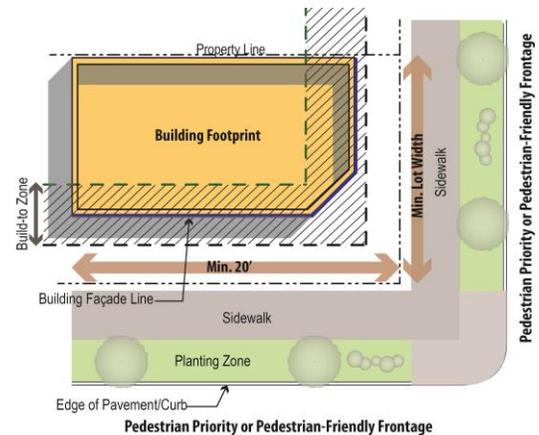

Illustration showing requirements along Pedestrian Priority Frontages

Graphic Illustrating the Application of Street Type Designation Based on the Development Context

Street Intersections

- Corner building street facades along intersections of Ped Priority and Ped Friendly Frontages built to BTZ (Build-To Zone) for a minimum of 20' from the intersection, or the width of the corner lot, whichever is less.
- Applies to all three types of street frontage.
- Corner building height may exceed maximum building height by 25% along no more than 20% of building frontage of each street.

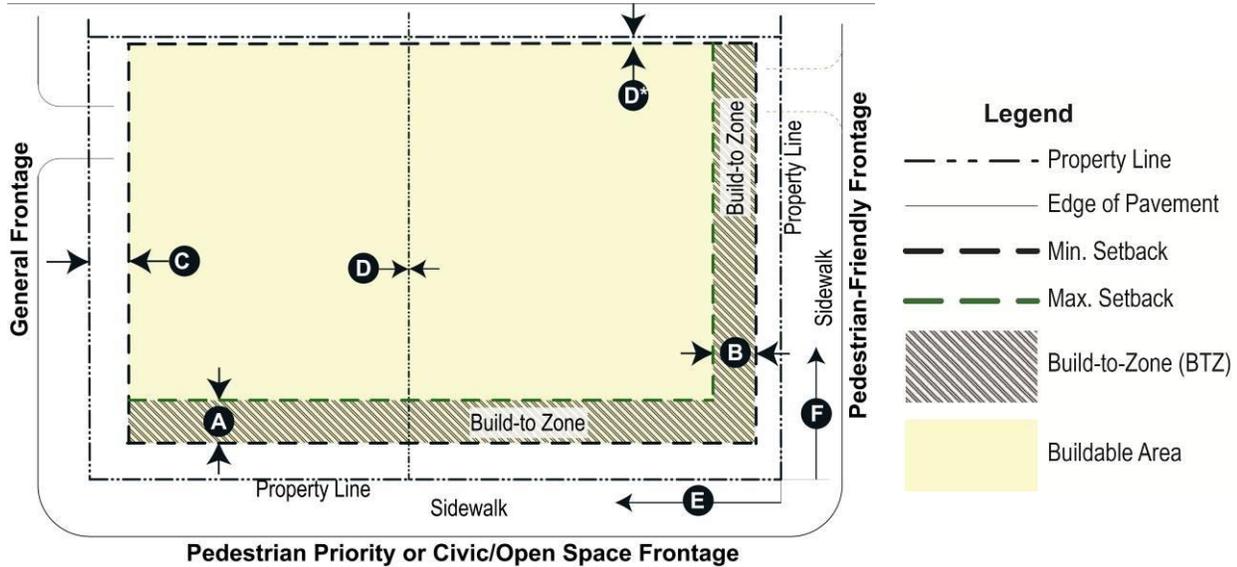

Parking and Service Access

- Required off-street parking regulated by C-L base zoning (min. 1/2 City standard– max. City standard)
- Driveways and off-street loading and unloading may be located with access along a Ped Friendly Frontage only if the property has no access to an alley, General Frontage street or joint use easement to adjoining property with direct driveway access to any other street
- Driveway and off-street loading and unloading may be located with access along a Ped Priority Frontage only if the property has no access to an alley, Ped Friendly street or General Frontage street or joint use easement to an adjoining property with direct access to any other street.
- Along Ped Priority and Ped Friendly Frontages, driveway spacing is limited to one driveway per block or per 200 feet of block if block is greater than 400 feet in length.
- Shared driveways, joint use easements or joint access easements will be required for adjoining properties when driveway and service access is off a Ped Priority or Ped Friendly Frontage.
- Service and loading/unloading shall be screened.
- Driveway widths
 - Mixed-use driveways/alleys – maximum of 20'
 - Service driveways/alleys – maximum of 30'
 - Driveways wider than 24' only located off of General Frontage streets
 - Driveways/alleys along State controlled roadways shall meet AHTD Standards or the City's adopted regulations
 - Residential driveways – maximum 12'
- Street Screen Required
 - Any lot frontage along Ped Priority or Ped Friendly Frontages with surface parking shall use a Street Screen
- Phased Developments
 - Infill development likely
 - Certain standards may be deferred for phased development if:
 - Site plan submission including phased development plan
 - Private landscaping and open space amenities may be phased with building to allow final landscaping when adjacent buildings are finished
- Required Public Improvements
 - May be deferred through proportional fee-in-lieu and calculated based on street type cost at time submitted
 - When required street improvements (gas/water/sewer) are made by a developer, the entire block or linkage of utility improvements will be completed in whole. Developer eligible to receive fees in-lieu collected by the City from the benefitting properties of the developer's improvements.

Mixed-Use Character Area (MU)

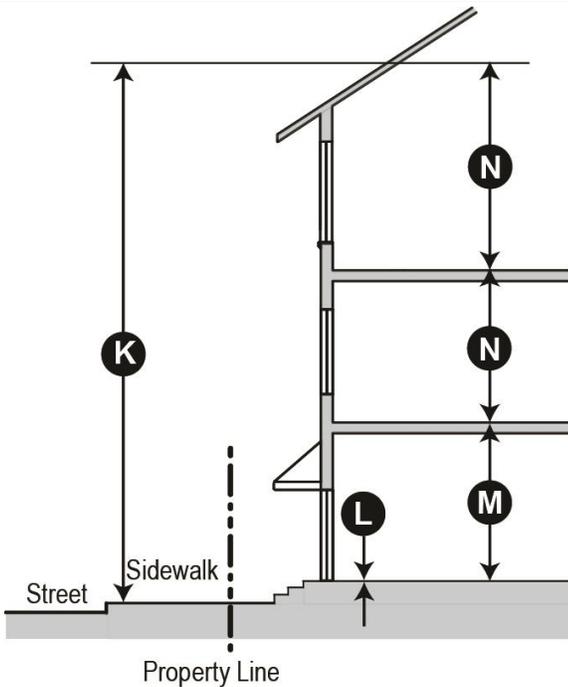

(b) Building Placement

(i) Build-to Zones (BTZs) and Setbacks (Distance from property line to edge of the zone)		
Pedestrian Priority Frontage / Open Space (BTZ)	5' min. setback – 15' max. setback	A
Pedestrian-Friendly Frontage (BTZ)	5' min. setback – 75' max. setback	B
General Frontage	5' min. setback; no max. setback	C
Side	0' min. setback; no max. setback	D
Rear	0' min. setback; no max. setback	D*
(ii) Building Frontage (Minimum % of lot's width that building's façade is required to cover along fronting street)		
Pedestrian Priority / Open Space Frontage	70% min.	E
Pedestrian-Friendly Frontage	50% min.	F
General Frontage	None Required	

(c) Building Height

(i) Principal Building Standards

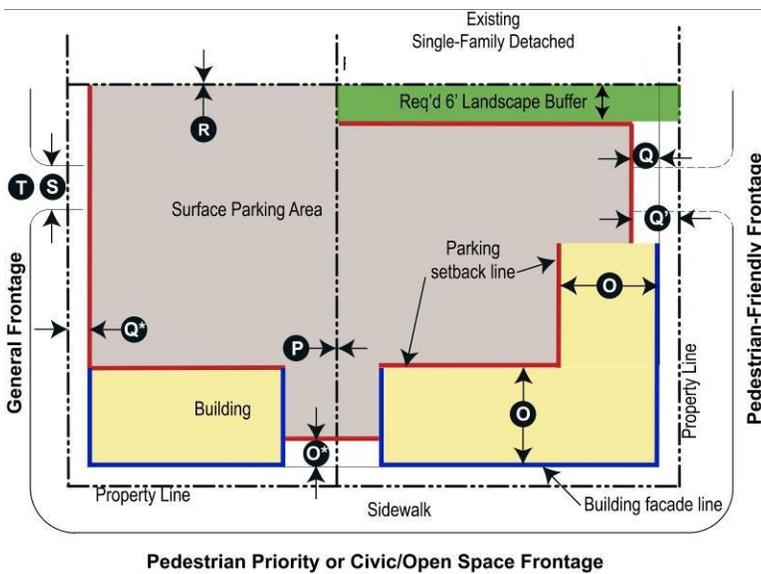

Building maximum	<ul style="list-style-type: none"> 4 stories Transition requirement if adjacent to detached single-family zoned residential 	K
First floor to ceiling height (fin. floor to structure of ceiling)	<ul style="list-style-type: none"> 12' min. for all frontages 	M
Ground floor finish level	<ul style="list-style-type: none"> Maximum 12" rise for commercial ground floor. 	L
Upper floor(s) height (fin. floor to structure of ceiling)	<ul style="list-style-type: none"> 9' min. 	N

(ii) Accessory Building Standards

Accessory buildings shall meet the standards for Principal Building standards in the Mixed-Use Character Area.

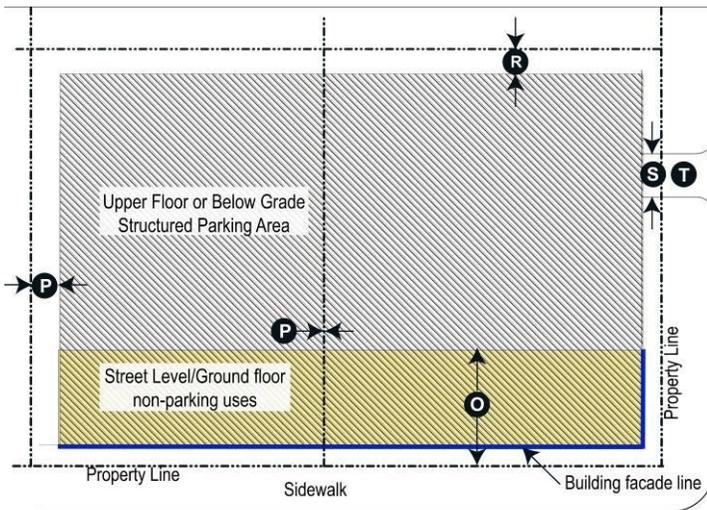

(d) Parking & Service Access

(i) Surface Parking Setbacks

Pedestrian Priority or Civic/Open Space Frontage	<ul style="list-style-type: none"> Shall be located behind the principal building along that street frontage; or Min. 3' behind the building façade line along that street 	O* O
Pedestrian-Friendly Frontage	<ul style="list-style-type: none"> Min. 3' behind the building façade line along that street or Min. 6' behind the property line along that street (if no buildings along the street frontage) 	Q Q*
General Frontage	<ul style="list-style-type: none"> Min. 3' behind the property line along that street 	Q*
Side	<ul style="list-style-type: none"> 6' (min) only if adjacent to any single-family detached residentially zoned lot; 0' for all other adjacencies 	P
Rear	<ul style="list-style-type: none"> 6' (min) only if adjacent to any single-family detached residentially zoned lot; 0' for all other adjacencies 	R

(ii) Structured Parking or Below Grade Parking Setbacks

Pedestrian Priority / Civic/Open Space Frontage	<ul style="list-style-type: none"> Ground floor - Shall be min. of 30' from the property line Upper Floors – may be built to the façade line along that street 	O
Pedestrian-Friendly Frontage or General Frontage	<ul style="list-style-type: none"> May be built up to the building façade line along a that street; or If no building is located along the street frontage; then the structured parking shall meet the setback standards along that specific frontage. 	
Side	<ul style="list-style-type: none"> 10' (adjacent to SF-detached residentially zoned lot) 0' (all other adjacencies) 	P
Rear	<ul style="list-style-type: none"> 10' (adjacent to SF-detached residentially zoned lot) 0' (all other adjacencies) 	R

Pedestrian Priority or Civic/Open Space Frontage

Standards for **S** and **T** in the illustrations above are referenced in standards for Driveways, Alleys and Service Access section below.

(iii) Partially Below Grade Parking

May be built up to the Building Façade Line along all Pedestrian-Friendly Frontages and General Frontages.

(iv) Driveways, Alleys and Service Access

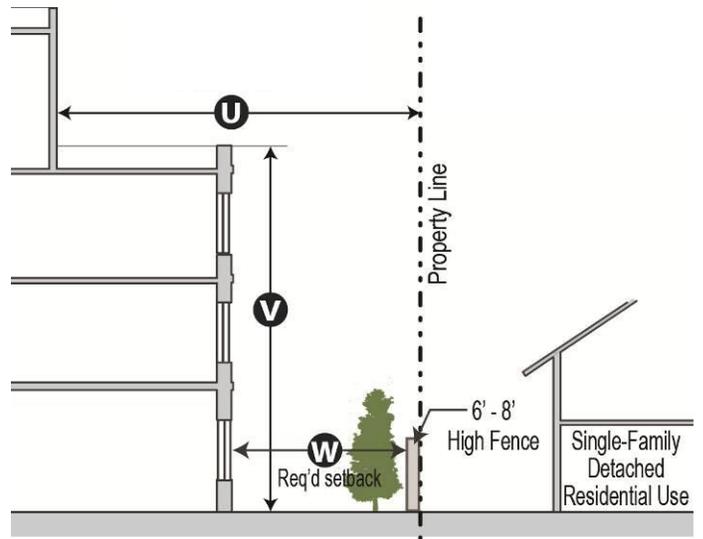

1. Parking driveway width	See LDO Section 4	S
2. Driveways, alleys and off-street loading and unloading	See LDO Section 4	T

(e) Residential Transition Standards

The following transition standards shall apply to all new building construction and all upper story additions to existing buildings located adjacent to existing single-family detached residentially zoned lot.

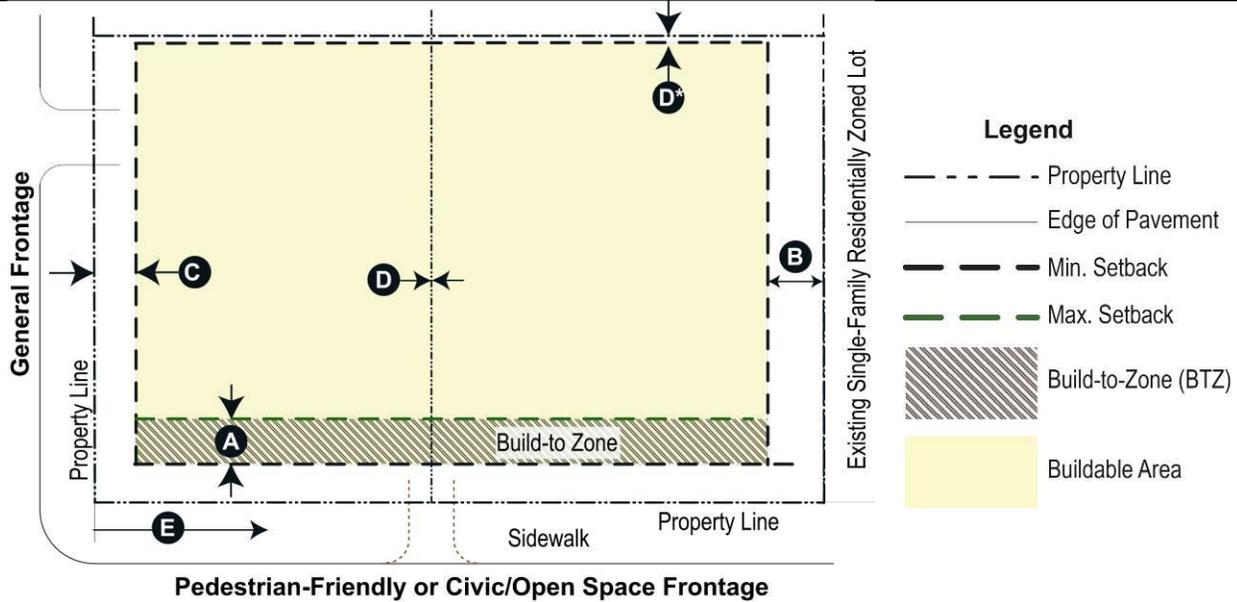

i. Transition Area	25' min.	U
ii. Max. Building Height at within Transition Area	3 stories	V
iii. Required setback	Min. 10'	W

A Residential Transition Area fence (minimum 6 feet and maximum 8 feet high) shall be required when adjacent to an existing single-family detached residentially zoned lot and shall be optional for all other adjacencies. The required fence shall NOT be chain link or vinyl. A 6-foot wide landscape buffer with evergreen shrubs planted at 3' on center and 6' min. in height at maturity shall also be required to be planted within the landscape buffer parallel to the SF-residential lot line. (see surface parking setbacks illustration)

Mixed-Residential Character Area (MR)

(b) Building Placement

(i) Build-to Zones (BTZs) and Setbacks

Pedestrian-Friendly or Civic/Open Space Frontage (BTZ)	5' min. setback – 20' max. setback	A
General Frontage	5' min. setback; no max. setback	C
Side Adjacent to SF-detached residentially zoned lot	10' min. setback; no max. setback	B
All other adjacencies	0' min. setback; no max. setback	
Rear Adjacent to SF-detached residentially zoned lot	10' min. setback; no max. setback	D*
All other adjacencies	0' min. setback; no max. setback	

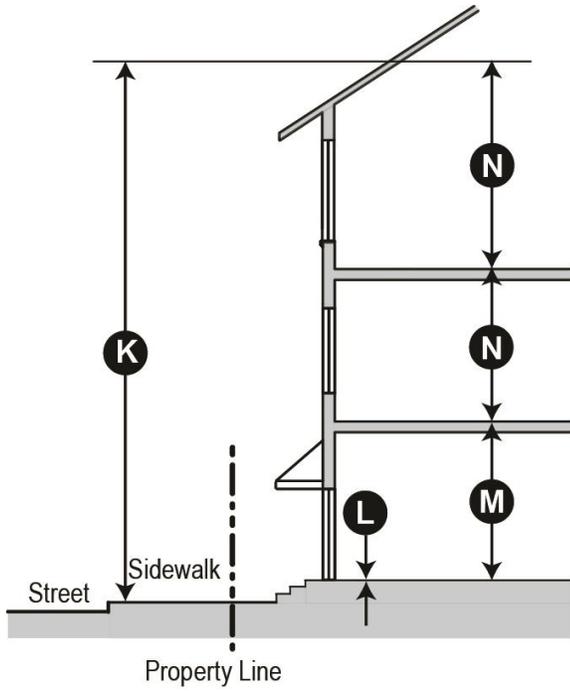

(ii) Building Frontage (Minimum % of lot's width that building's façade is required to cover along fronting street)

Pedestrian-Friendly Frontage	50% min.	E
General Frontage	None Required	

(c) Lot Standards

Lot Width	<ul style="list-style-type: none"> Min. 18' for single-family attached/townhome buildings Min. 40' for single-family detached buildings No min. for commercial and mixed use buildings Alley corner clips shall not exceed 5' from the corner of the lot.
-----------	---

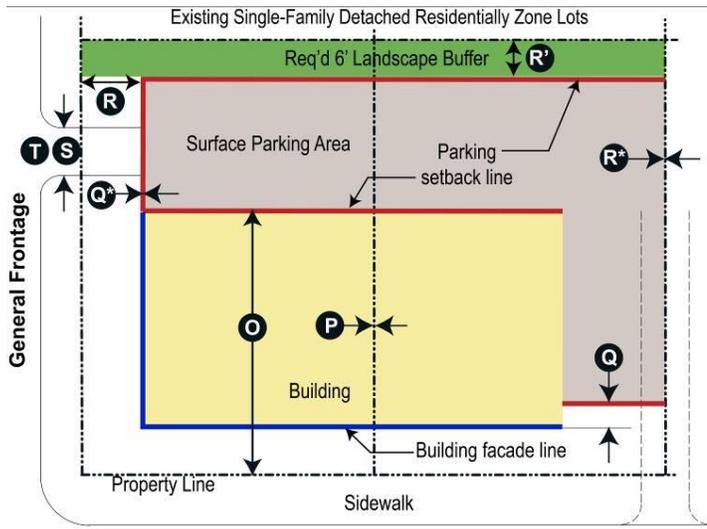

(d) Building Height

(i) Principal Building Standards		
Building maximum	<ul style="list-style-type: none"> 5 stories Transition requirement if adjacent to detached single-family zoned residential 	K
First floor to floor height (fin. floor to structure of ceiling)	<ul style="list-style-type: none"> 10' min. for all frontages 	M
Ground floor finish level	<ul style="list-style-type: none"> 18" min. above sidewalk for ground floor residential uses along Pedestrian-Friendly Frontages that are also setback less than 10' from the front property line 12" maximum for non-residential 	L
Upper floor(s) height (fin. floor to structure of ceiling)	<ul style="list-style-type: none"> 9' min. 	N
(ii) Accessory Building Standards		
Building Height	2 stories max.	
BTZ/Setbacks	Shall be placed behind the front façade of the principal building along Pedestrian-Friendly Frontages. If the principal building has no Pedestrian-Friendly Frontage, then the accessory building shall be placed behind the Building Façade Line of the primary building along a General Frontage street.	

(e) Parking & Service Access

i. Surface Parking Setbacks

Pedestrian-Friendly or Civic/Open Space Frontage	<ul style="list-style-type: none"> Shall be located behind the principal building along that street frontage; or Min. 3' behind the building façade line along that frontage 	O	Q
General Frontage	<ul style="list-style-type: none"> At or behind the building façade line along that frontage; or Min. 6' behind the property line along that street 	Q*	R
Side / Rear	<ul style="list-style-type: none"> Adjacent to SF-detached residentially zoned lot 6' min. 		R'
Side / Rear	<ul style="list-style-type: none"> All other adjacencies 0' min 	P	R*

Pedestrian-Friendly or Civic/Open Space Frontage

Standards for **S** and **T** in the illustrations above are referenced in standards for Driveways, Alleys and Service Access section below.

ii. Driveways and Service Access

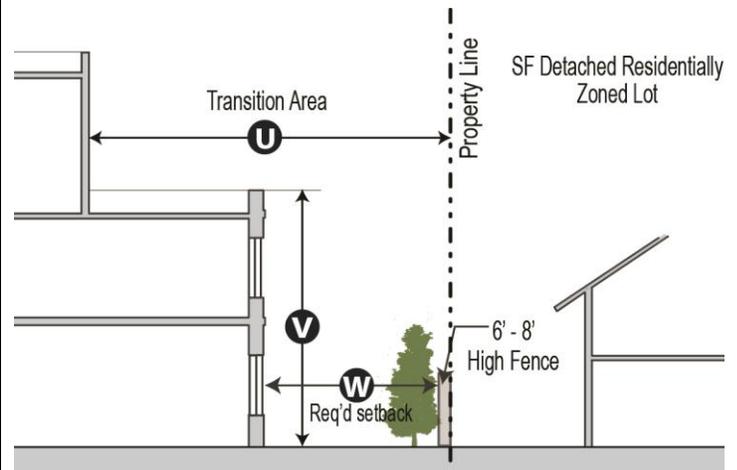

1. Parking driveway width (at the throat)	See LDO Section 4	S
2. Driveways and off-street loading and unloading	See LDO Section 4	T

(f) Residential Transition Standards

The following transition standards shall apply to all new building construction and all upper story additions to existing buildings located adjacent to existing single-family detached residentially zoned lot. This requirement shall NOT apply if an alley or other similar R-O-W separates the subject lot and the existing single-family detached residential lot.

- i. Transition Area 20' min. **U**
- ii. Max. Building Height at within Transition Area 2 stories **V**
- iii. Required setback Min. 10' **W**

A Residential Transition Area fence (minimum 6 feet and maximum 8 feet high) shall be required when adjacent to an existing single-family detached residentially zoned lot and shall be optional for all other adjacencies. The required fence shall NOT be chain link or vinyl. A 6-foot wide landscape buffer with evergreen shrubs planted at 3' on center and 6 min. in height at maturity shall also be required to be planted within the landscape buffer parallel to the SF-residential lot line. (see surface parking setbacks illustration)

BUILDING DESIGN STANDARDS

Applies to: All additions, all new construction.

Building Orientation and Entrances

- Orient buildings and entrances towards Pedestrian Priority frontages/public sidewalks
- Secondary entrances from parking areas or alleys
- Design guidelines for primary entrances

Façade Composition

For commercial and mixed-use:

- Facades greater than 60 ft. in length:
 - Step back or extend forward a portion of façade by at least 24 inches (“building projection”)
 - 20-60 ft. between each building projection
- Facades less than 60 ft.:
 - At least one discernable architectural element every 20 feet. Examples:
 - Changes in material/color/texture at 20-60 ft. intervals
 - Building entrances, windows, arcades, balconies, or other architectural features.

For residential use:

- At least one of: porches, stoops, eaves, forecourts, courtyards or balconies.
- If less than 10 ft. setback, first floor at least 18 in. above sidewalk.

Façade Transparency/Glazing requirements (% of transparent doors and windows)

Façade Frontage Type →	Pedestrian Priority or Pedestrian-Friendly Frontage	General Frontage	All other facades
Commercial Use or Mixed Use Buildings			
Ground Floor	60% (min.)	None	None
Upper Floor(s)	30% (min)	None	None
Residential Use Buildings			
Ground Floor	40% (min.)	None	None
Upper Floor(s)	20% (min.)	None	None

Commercial Ready Standards

- Entrance directly onto sidewalk
- First floor 12 ft. minimum height
- Minimum width 20 ft.
- Front façade meets glazing requirements
- No parking between sidewalk and building along Pedestrian Priority frontage

Shading Requirement

- At least 60% of sidewalk along building facades must be shaded through any combination of canopies, awnings, street trees, or similar
- Building entrances under shade devices, such as awning or portico

Exterior Building Materials

- EIFS (Exterior Insulation Finish System) can be used along Pedestrian Priority/ Friendly frontages only for moldings and detailing. Other frontages can be used on upper floors only.
- 50% of the non-glazed surfaces shall be any mix of stone, brick, or stucco.

Design of Automobile Related Building and Site Elements

- Primary building entrance along Ped Priority
- Drive-through lanes, auto service bays, gas station canopies:
 - No frontage along Ped Priority, unless property has no access to Ped Friendly, General or Alley frontage. If access to Ped Priority provided, joint access easement required to adjoining properties to also provide alternative access.
 - Frontage along Ped Friendly only if property has no General or Alley frontage, and no more than 60%
 - Must be screened behind 3 ft. high street screen
- Loading and trash pick-up along alleys or General frontages, or Ped Friendly if no other option. Must be screened with something at least as tall as trash container/service equipment.

Design of Parking Structures

- Ground floors along Ped Priority will be built to Commercial Ready Standards to a minimum depth of 30 ft.
- Shortest side facing Ped Priority frontage
- No ramps along exterior perimeter of structure
- Emphasize corners through towers, ped entrances, signage, glazing.
- Pedestrians and bicyclists must be clearly visible to entering/exiting cars.
- Along Ped Priority frontage:
 - Cars on all levels completely screened from view.
 - No visible ramps.
 - Second floor must match first floor façade.

STREET (PUBLIC SIDEWALK) DESIGN STANDARDS

Applies to: Commercial additions, commercial new construction.

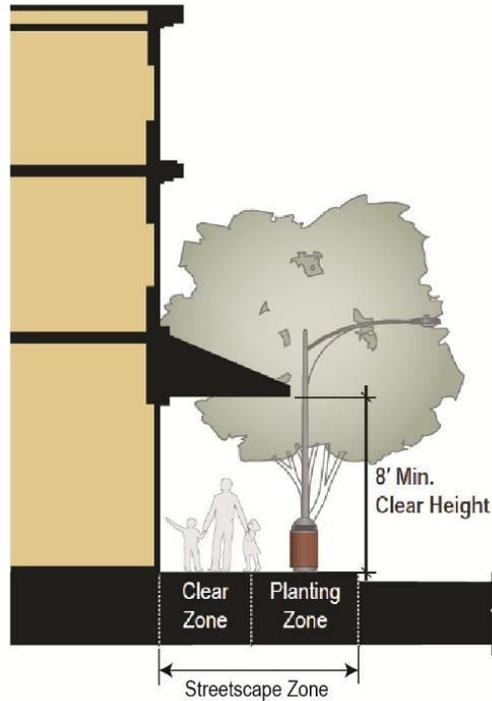

Street Classification	Camp Robinson	Mixed-Use Street	Neighborhood Street	Alley
Standard				
Min. Sidewalk width (includes planting zone and clear zone) (feet)	12'	9'	9' (one side)	N/A
Min. Planting Zone width (feet) [Street trees may be in tree wells along Type 'A' frontages]	5'	4'	4'	N/A
Street Trees Req'd (see Section 8.2 for standards)	Yes (Tree wells or bioswale systems)	Yes (Tree wells or planting areas)	Yes (Tree wells or planting areas)	No
Recommended Development Frontage	Pedestrian Priority or Pedestrian-Friendly	Pedestrian Priority or Pedestrian Friendly	Pedestrian Friendly	None

STREETSCAPE AND LANDSCAPE STANDARDS

Applies to: All additions, all new construction.

Sidewalks

- Planting zone: Street trees & street furniture
- Clear zone: Pedestrian walkway

Street Trees and Streetscape

- Street trees required
- Centered in planting zone, min. 3 ft. from face of curb
- Minimum average of 40 ft. on center, not to exceed 60 ft. on center
- Planting area for each tree = 6 ft. x 6 ft. with required street grate
- Species according to NLR ZO (Zoning Ordinance Section 15.4)

Screening Standards

- Surface parking adjoining the BTZ (Build-To Zone) on Pedestrian Priority and Pedestrian Friendly frontages: 3-4 ft. high screen required.
- Service areas: Must not be visible to a person standing on property line on other side of the street.
- Screening materials for both: Same building materials as rest of building or opaque vegetation.
- Roof mounted equipment: Must not be visible to a person standing on property line on other side of the street. Screening materials: Same as primary building material.

Street Lighting

- No taller than 20 ft.
- Between every other street tree, lined up with street trees.
- Consistent throughout PHDO area.

Exterior Lighting

- Includes all commercial development and parking lots.
- Comply with ZO Section 18.4.

Street Furniture

- Benches and bike racks in alignment with light poles and street trees.
- Trash cans required at street corners if applicable, or near front entry.
- Benches recommended along Pedestrian Priority.

Utilities

- Utility lines from building to property line should be buried.
- Along Camp Robinson, no above ground utility lines within streetscape zone (bury or move to rear).
- Encourage underground along all other streets except alleys.
- Switchgear and transformer pads not visible to person standing across street.

Parking Lot Landscaping

- Surface parking lot standards must comply with ZO Section 15.4.

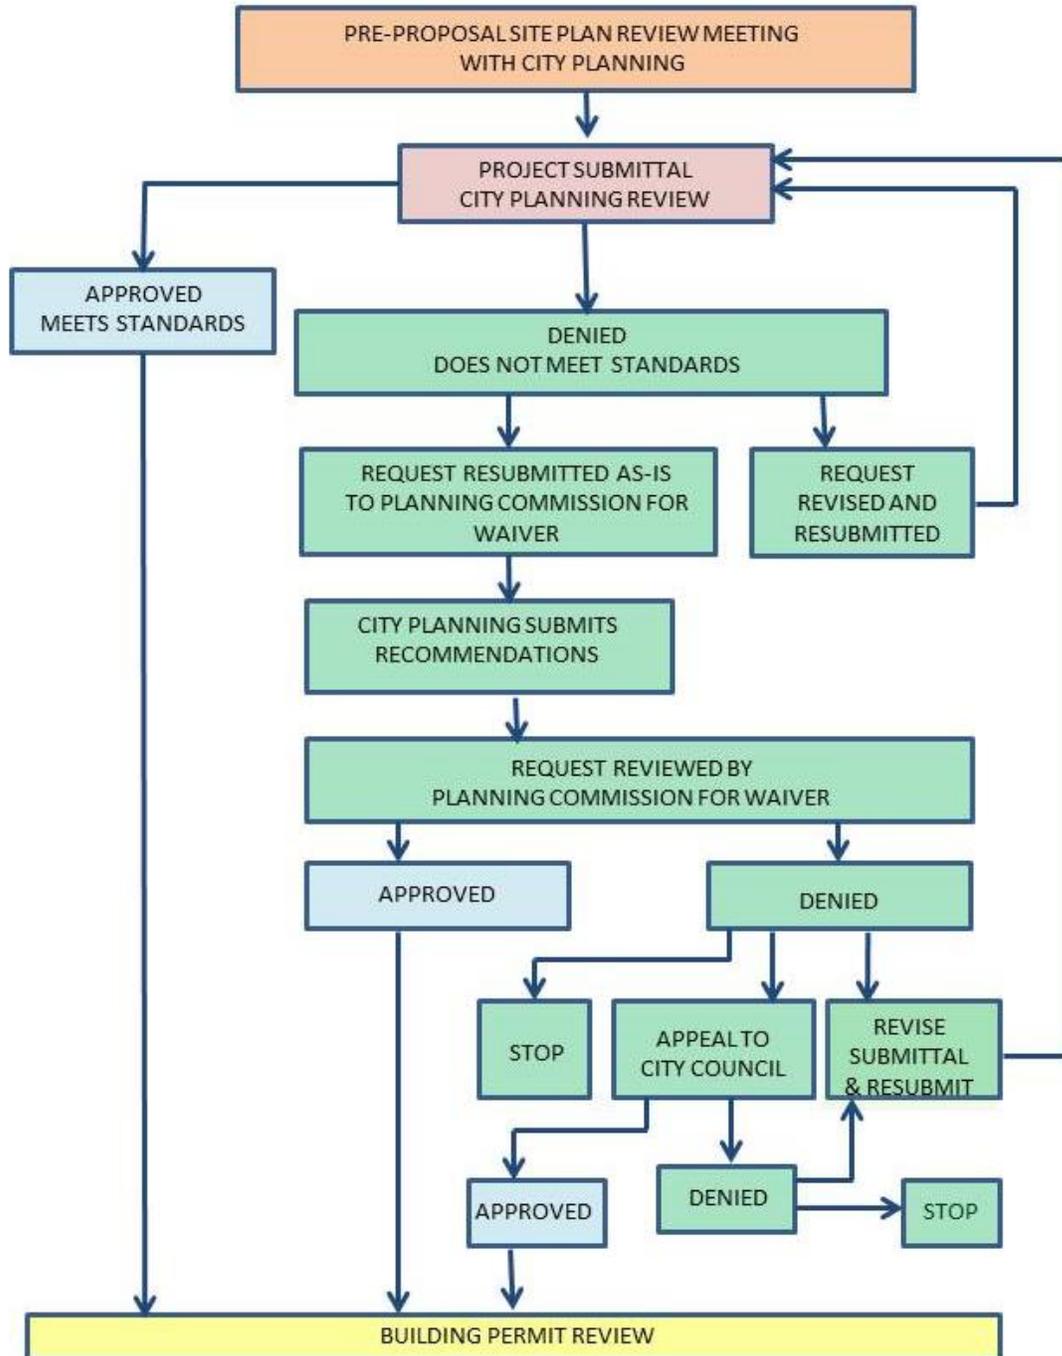

OPEN SPACE STANDARDS

Applies to: Additions and new construction if 2+ acres or 8+ dwelling units.

- Commercial developments:
 - Applies to lots 2+ acres
 - 4 sq. ft. of Public or Private Common Open Space for every 100 sq. ft. of non-residential space
- Residential developments:
 - Applies to buildings with 8+ dwelling units per acre

Residential Density (dwelling units per acre)	Private Common Open Space Standard Proposed (area of private common space per dwelling unit)
0 – 7 DU / acre	Not required
8 – 19 DU / acre	Provide minimum of 160 sf per dwelling unit
20 – 29 DU / acre	Provide minimum of 120 sf per dwelling unit
30 – 39 DU / acre	Provide minimum of 80 sf per dwelling unit
40 – 79 DU / acre	Provide minimum of 60 sf per dwelling unit
More than 80 DU / acre	Provide minimum of 40 sf per dwelling unit
